

# 5 CLAIMS MANAGEMENT MUST-HAVES FOR SNFs

## Single sign-in access to all payers

1

Multiple payer sites and systems mean multiple logins that drain productivity. Give employees their time back with a single login to access all payers (commercial and government).

[Is your workflow slowing down revenue?](#)

## Automated efficiency

2

Automated claims processes save significant time and help ensure your SNF collects all of the Medicare reimbursement dollars owed. Never miss a timely filing deadline with automatic secondary claims submission.

## Unrivaled customer service

5

When you have a problem, the last thing you need is a runaround from your software vendor. Inovalon's dedicated customer service team delivers a white-glove enrollment experience, followed by ongoing support with our decades of denial management expertise and our quick-turn custom business rules.

## Direct connections, no disruptions

MEDICARE • MEDICAID • PRIVATE PAYERS

## Actionable insights

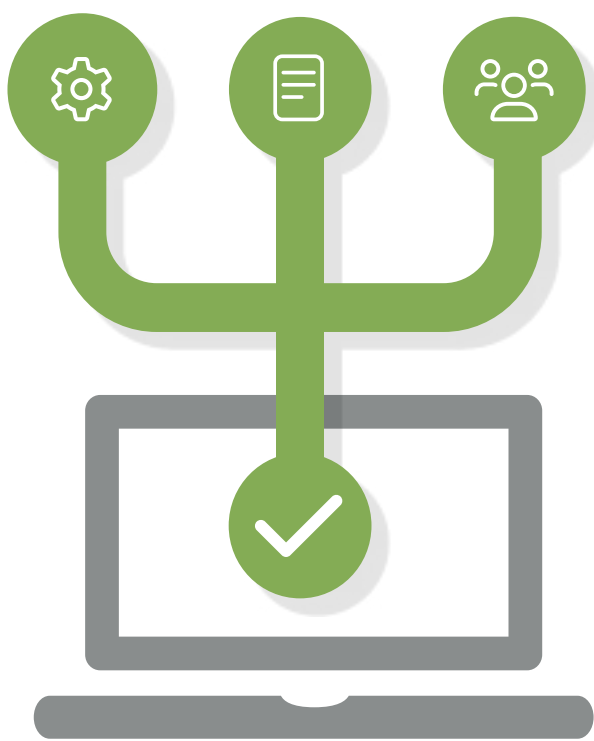

4

Not sure what to do with all your claims data? [Put analytics to work.](#) You can see exactly where workflow bottlenecks are slowing your revenue cycle, denial trends that need correction, and more. And view it all in user-friendly scorecard format.

## End-to-end visibility

3

From eligibility and claims to remits and reimbursement, using a [single integrated solution](#) with customizable dashboards helps SNFs monitor their revenue cycle from end to end, enabling them to reduce denials and forecast cash flow in real time.

Streamline workflows and maximize revenue cycle profitability with the only comprehensive claims management and RCM analytics solution. Our single login system has been trusted by our skilled nursing customers for more than 20 years to deliver [end-to-end revenue cycle visibility](#) and faster, easier claims processing.
